

# SUMMIT LOCKERS™

TM

*Your Home for Innovative Lockers*

Welcome to Summit Lockers™, the home of durable, environmentally friendly **SOLID PHENOLIC** and **SOLID PLASTIC** lockers. We utilize quality materials and innovative manufacturing techniques to build lockers that will survive daily use and abuse.

### **LOCKER ROOM INNOVATIONS**

- ... Environmentally friendly materials
- ... Water, corrosion and mildew resistant
- ... Enhanced multi-direction ventilation
- ... Clean contemporary look
- ... Custom finish options

- *Low Maintenance*
- *Durable*
- *Hundreds of styles, sizes & colors*
- *Great for pools, spas and gyms*
- *Made in the USA!!!*

### **LEED® Support**

Summit contributes to LEED certification with recycled content, GreenGuard and FSC certified Phenolic

### **Water Resistant**

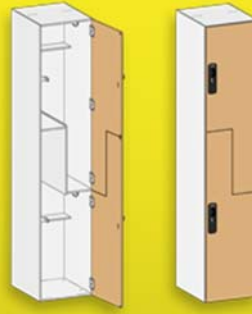

**SOLID PHENOLIC** and **SOLID PLASTIC** lockers have non-porous, easy to clean surfaces that resist water, mold and mildew.

### TRADITIONAL LOCKERS

- « Single to nine-tier
- « Widths from 6" to 30"
- « Vanity shelves & mounting cleats

- « Stainless steel, steel and aluminum pedestals
- « Movable, fixed pedestals and wall mount brackets

*Customize your project with multiple colors, door pulls, locks, color coded tags, magnetic catches and interior options to meet your unique project requirements.*

## LOCKS

*Whether choosing locks for temporary or permanent use, high end or low cost, Summit Lockers can help. We supply and install locks from all the major lock manufacturers. Below are a few lock types and locks commonly used. Call us to verify availability of other locks not shown below.*

#### COMBINATION

#### COIN / KEY

#### HASP

#### RFID

#### MECHANICAL DAY/ASSIGNED USE

#### DIGITAL DAY/ASSIGNED USE

## Innovative Construction

Summit Lockers are constructed with **MORTISE & TENON** joints, **CABINET STYLE** doors, **STAINLESS STEEL** hardware, waterproof panels and engraved ID tags for durability.

**MORTISE & TENON** joints are known for strength since they leverage inherent material strength to protect against failures.

Summit Phenolic Lockers are built like **CABINETS**, with full width doors and hidden ventilation. Unlike old style lockers with frames and louvers, Summit's design improves access, appearance, storage capacity and ventilation.
